Professional Summary

Full Stack Software Developer with hands-on experience building responsive, scalable, and dynamic web applications. Proficient in modern JavaScript/TypeScript frameworks, RESTful API development, and relational database design. Recognized for quickly adapting to fast-paced technical environments and delivering robust production-ready code.

Core Skills

- JavaScript (ES6+)
- TypeScript
- React
- Next.js
- Node.js
- Express.js
- Python
- Django
- PostgreSQL
- SQL
- Tailwind CSS
- REST APIs
- Git & GitHub
- React Native

Technical Projects

MyRecipes - Full Stack Meal Planning App,
Full Stack Web Application
React, Node.js, Express, Tailwind

- Engineered a complete web application featuring secure JWT authentication and comprehensive CRUD operations for recipes.
- Developed a scalable REST API with Express.js and integrated it seamlessly with a dynamic React frontend using Axios.

Chichie Restaurant Portal,
Interactive Web Application
React, Tailwind CSS

- Built a responsive interactive food website showcasing digital menus and streamlining online ordering processes.

Chichie Bridal Boutique, *E-Commerce Interface*
React, Tailwind CSS

- Designed and developed a modern, fully responsive e-commerce web interface tailored for a local boutique.

Light switch bulb, *Utility Component*
HTML5, CSS3, JavaScript

- Developed a lightweight, vanilla JavaScript toggle application demonstrating state management and DOM manipulation.

Strengths

Fast Learner
Quickly adapts to new stacks and technologies.

Problem Solver
Writes clean, maintainable code to debug complex issues.

Detail Oriented
Focused on seamless UI/UX and high code quality.

Education

Full Stack Software Development, *Uncommon.org*
2026 – Present
Intensive training program focused on full-stack web engineering, algorithms, databases, and modern software design practices.
